Dear Sir or Madam:

Wisconsin currently has nine different alternate system approvals for air admittance valves (AAV). The expiration dates of these approvals vary.

The purpose of this letter is to inform you of the expiration dates. If the manufacturer does not resubmit to the department and gain approval for an alternate or experimental system, the AAV's cannot be installed after the date shown.

If the manufacture resubmits and gains approval, the department will post the approval letters on our web site at: <http://www.commerce.wi.gov/SB/SB-PubsPlumbProdReg.html>

The expiration dates are as follows for each make and model #.
