

SEPTEMBER 2007

Dear Local 75 Member:

The next installment of the 2006-2007 Partners In Safety program will be a continuation of **OSHA Standards & Other Regulations**.

It has been several years since the Partners In Safety program was created, and through the cooperation of Local 75, PMC, our employees and our contractors, we have increased both the knowledge and application of safe work practices in our industry.

Since its inception, we have covered a number of topics - Back Safety, Hearing Conservation and Bloodborne Pathogens, to name a few. This installment, we will continue with a new topic of OSHA Standards, working towards the OSHA-10 card by the end of 2007. Specifically, we will be discussing **HAZARD COMMUNICATION AND EXCAVATION/TRENCHING**.

**Exemption:** Any member, who has obtained an OSHA-10 card, will be exempt from this semester. Please submit a copy of your OSHA-10 card to **Plumbers Local 75** **Attention: WES ZASTROW**, in person, by mail, or by fax.

The purpose of this course is two-fold: First, it provides important training in evermore stringently enforced OSHA regulations. It also articulates the importance of knowing how and why you take certain precautions on the jobsite and the impact that your actions have on the bottom line.

The instructor for the course is Mike Busch, a Local 75 member employed at Alpine Plumbing. Mike Busch has instructed the Local 75 Continuing Education course on OSHA Smart Mark since 1999 and the Apprentice Day School OSHA Safety course since 2004.

To register for a Partners In Safety class, please complete the enclosed form and return it to **Plumbers Local 75, Attention: JENNY**.

# PARTNERS IN SAFETY

## Registration Form

Fall 2007
