

WEBINAR: HVAC Duct Construction Standards

Presented by: SMACNA

May 20, 2009

11:30-1:00pm

PMSMCA- 10427 W. Lincoln Ave #1600

This 90 minute webinar will demonstrate how to use SMACNA's 3rd Edition of the *HVAC Duct Construction Standards* to determine the proper range of construction options of rectangular duct used in today's commercial market. The topics covered will include:

- How to use the rectangular duct pressure class table
- How to use the new tables for T-25a/T25b (TDC/TDF) transverse joints
- Proper Tie Rod selection

There will be multiple step by step examples showing the selection process for internal and external reinforcement, selecting the proper transverse joint type, and selecting the proper seam type. Other common questions and concerns will also be addressed.

WHO SHOULD ATTEND?

Anyone involved in the construction, estimation, or installation of ductwork is encouraged to attend. Estimators, Foremen, Superintendents, and Project Managers will benefit from this program as an introduction to the manual or as a refresher to ensure they are operating their shops in the most cost-effective manner with regards to rectangular duct fabrication.

The cost to attend is \$10/ per person for SMACCA & PMC Members or \$30/per person for non-members. Lunch will be provided.

REGISTRATION—HVAC Duct Construction Standards - May 20th - 11:30am - 1:00pm

Registration Deadline—Friday, May 15th
